Background

This brochure is published as part of our School Renewal Plan (2007-2011). Our aim is to annually produce a document which will keep our school and the wider community informed as of the directions we are taking and the goals we are aiming to achieve.

Building on achievements in 2006, these goals have been developed in conjunction with an ongoing process of review involving parents, staff and the wider community. These groups continue to provide much valued support to the Administration of Our Lady Help of Christians School. We believe we will continue to be a partnership where “We are a people who value respect, unity and harmony to provide a secure, harmonious and challenging environment conducive to learning and self-enhancement” (Mission Statement)
